

Submit scheduled orders **electronically** through the Hoag HIE

Now you can **quickly and easily** place scheduled orders electronically to Hoag, whether or not you have an EMR – and Hoag can automatically process the insurance authorization for you.

Scheduled Orders functionality provided through the Hoag HIE enables you to:

- Place and send orders electronically
- Manage orders using a worklist
- Perform automatic medical necessity checking
- Create favorites lists
- Print educational materials to prepare patients for the scheduled procedure
- Print completed orders

If you have an EMR

Your EMR may already have all the functionality necessary to enter an order. In that case, the Hoag HIE simply handles the transmission of your order to Hoag. However, the HIE can also fill any functionality gaps your EMR may have. For example, if your EMR doesn't perform automatic medical necessity checking, the Hoag HIE can fill that gap.

If you don't have an EMR

Placing scheduled orders to Hoag is easy! Simply access the Scheduled Orders application using your standard Internet browser. This secure, online eRequisition form is designed to mimic your paper-based workflow, resulting in an intuitive order-entry process. Not only does the system enable you to place an order, it also helps you manage your patient's compliance with the order.

Placing and managing orders through the Hoag HIE streamlines your workflow, allowing you to spend less time on administrative functions and more time with patients.
